DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3-6, 8-11 and 13-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Steele (5,826,900).

Steele discloses an adjustable foot support for a motorized vehicle comprising a mounting member 14 connected to one end of the foot support wherein the mounting member has a first side and a second side;

a bore 30;

a bore insert 36;

a bore insert stop;

a foot support 10; and

a mounting bracket 34.

With respect to claims 16-21, Steele teaches a method for adjusting the position of a foot support on a motorized vehicle with the disclosed structure as shown in the figures.

Claim Objections

3. Claims 2, 7 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
